

# Tushar M. Athawale

---

<http://tusharathawale.info> | [athawaletm@ornl.gov](mailto:athawaletm@ornl.gov) | [Google Scholar Profile](#)

## Research Interest

Data visualization, statistical uncertainty visualization, topological data analysis, visualizations for large-scale/high-dimensional data, in situ computing and analysis, data science

## Research and Work Experience

**Oak Ridge National Laboratory (ORNL), Oak Ridge, TN** **Nov 2021 - Present**  
*Computer Scientist* in the visualization group. Research in uncertainty visualization and high performance computing for analysis of large-scale scientific data.

*Joint Faculty Assistant Professor* in the Department of Electrical Engineering and Computer Science at University of Tennessee, Knoxville, Aug 2023-Present

**University of Utah, Salt Lake City, UT** **Oct 2016 - Oct 2021**

*Post-Doctoral Fellow* in the scientific visualization group supervised by Distinguished Prof. Dr. Chris R. Johnson at the Scientific Computing and Imaging (SCI) Institute. Research in statistical uncertainty quantification and visualization for scientific data with applications ranging from biomedical imaging to large-scale simulations.

*Co-Instructor*, Scientific Visualization, Spring 2018 and Spring 2019.

*Co-Instructor*, Decomposition-Based Techniques in Data Analysis, Spring 2017.

*Seminar Leader*, scheduling weekly SCI Institute *visualization research seminars* for two semesters.

**MathWorks, Inc., Natick, MA** **July 2015 - Oct 2016**

*Application Support Engineer*, resolution of complex technical issues experienced by the MATLAB users. Lead contributor to the design and implementation of the in-built MATLAB function IMROTATE3 introduced in the R2017a MATLAB release for the rotation of 3D volumes. Conducting technical interviews for the Application Support Engineering role.

**University of Florida, Gainesville, FL** **May 2011 - May 2015**

*Research Assistant* in the visualization group led by Prof. Dr. Alireza Entezari in the Department of Computer and Information Science and Engineering (CISE). Research in uncertainty quantification of isosurface visualizations for reliable data representation and analysis.

*Teaching Assistant* for the graduate- and undergraduate-level courses on Computer Graphics, Advanced Data Structures, and Programming Fundamentals for CIS Majors 1.

**Nvidia Corporation, Pune, India** **Aug 2009 - May 2010**

*Software Engineering Intern*, the study of the screen space ambient occlusion (SSAO) algorithm and embedding of game-specific SSAO profiles into the Nvidia drivers for video games, such as Gears of War.

## Education

**Doctor of Philosophy (PhD) in Computer and Information Science and Engineering** **May 2010 - May 2015**

University of Florida, Gainesville, FL

Dissertation: Quantification and visualization of spatial uncertainty in isosurfaces for parametric and nonparametric noise models [[link](#)]

Advisor: Prof. Alireza Entezari

Graduated with highest distinction, GPA: 3.75/4.00

**Master of Science (MS) in Computer and Information Science and Engineering** **May 2010 - May 2014**

University of Florida, Gainesville, FL

Graduated with highest distinction, GPA: 3.75/4.00

Relevant Coursework: Analysis of Algorithms, Advanced Data Structures, Computer Graphics, GPU Architecture and Programming, Machine Learning

**Bachelor of Engineering (BE) in Computer Engineering** **May 2006 - May 2010**

University of Pune, Pune, India

Graduated with highest distinction, GPA: 8.81/10.00

## Teaching

- CS6635/5635 - Visualization for Scientific Data**, University of Utah **2018, 2019**  
Co-instructor with Distinguished Prof. Dr. Chris R. Johnson. Conducting graduate-level lectures on data visualization, ParaView software, and uncertainty visualization. Development and grading of course assignments and projects. Helping students successfully meet their project milestones.
- CS6962 - Decomposition Techniques for Computational Data-Enabled Science and Engineering**, University of Utah **2017**  
Co-instructor with Distinguished Prof. Dr. Chris R. Johnson. Conducting graduate-level lectures on data decomposition techniques, such as principal component analysis and singular value decomposition. Development and grading of course assignments and projects. Helping students successfully meet their project milestones.
- CAP 4730, CAP 5705 - Computer Graphics**, University of Florida **2012, 2014**  
Teaching Assistant for Prof. Dr. Alireza Entezari. Graduate- and undergraduate-level class. Grading of lab assignments and projects. Helping students in problem solving.
- COP 5536 - Advanced Data Structures**, University of Florida **2011, 2015**  
Teaching Assistant for Distinguished Prof. Dr. Sartaj Sahni. Graduate-level class. Grading of lab assignments and projects. Helping students in problem solving.
- COP 3502 - Programming Fundamentals for CIS Majors 1**, University of Florida **2013**  
Teaching Assistant for Dr. Peter J. Dobbins. Undergraduate-level class. Conducting student labs on Java programming language and grading lab assignments.

## Mentored Students

**Nrushad Joshi and Gautam Hari**, Indiana University Bloomington  
Interns (*Summer, 2023 and 2024*) enrolled in the Summer Undergraduate Laboratory Internship (SULI) program at ORNL. I have mentored Nrushad and Gautam in developing novel uncertainty visualization algorithms for univariate and multivariate data using the VTK-m parallel visualization library. The relevant poster received the **best poster award** at the *ORNL Software and Data Expo 2024* event, and the relevant paper received the **best paper honorable mention** at the *2024 IEEE Uncertainty Visualization Workshop*.

**Brooke Stanislawski**, Wind, Energy & Turbulence Lab, University of Utah  
A student in my *Visualization for Scientific Data (Spring, 2019)* class. I have mentored Brooke to get her class project published in the *EnergyVis 2021* conference. This project is about developing 3D visualizations for the simulation data modeling interactions between solar photovoltaic farms and atmospheric boundary layer.

**Dennis Njeru**, SCI Institute, University of Utah  
A student in my *Visualization for Scientific Data (Spring, 2019)* class. I have mentored Dennis with Dr. Johnson to help him get his research published in the *Computer Methods in Biomechanics and Biomedical Engineering: Imaging and Visualization (CMBBE)* journal. This project is about developing uncertainty visualizations for the simulation data generated in the domain of Electrocardiography Imaging (ECGI).

## Peer-Reviewed Journal Publications

## Professional Activities

- **Program chair** for the IEEE Visualization Conference (2025-2027)
- **Chair** of the "[2024 IEEE Workshop on Uncertainty Visualization: Applications, Techniques, Software, and Decision Frameworks](#)" co-held with the [IEEE VIS 2024 conference](#)
- **Organizer** of the tutorial on "VTK-m - A ToolKit for Scientific Visualization on Many-Core Processors" held at the [IEEE VIS 2022 tutorial track](#)
- Member of a **program committee** for the EuroVis [2023](#), [2024](#) posters and [2025](#) short papers.
- Member of a **program committee** for the IEEE VIS [2020](#), [2021](#), [2022](#), [2024](#) short papers
- Member of a **program committee** for the IEEE [TopoInVis 2022](#) workshop
- **Reviewer for** the IEEE VIS (2013, 2017-2024), EuroVis (2017-2019, 2021-2023), PacificVis (2023-2024), and China Visualization (2020) conferences
- **Reviewer for journal papers:** IEEE Transactions on Visualization and Computer Graphics (TVCG), Computer Graphics Forum (CGF), Computers & Graphics (C&G), Computer Methods in Biomechanics and Biomedical Engineering: Imaging & Visualizations (CMBBE), Computer Graphics & Applications (CG&A), Displays, and Journal of Big Data
- **Poster reviewer** for undergraduate student posters presented at the [Undergraduate Research Symposium](#) in 2018 and 2019
